### Section 4 - No Qualification - Ocean Diver Training

With no qualifications you will have to train as a BSAC Ocean Diver. Before joining the club we recommend that you contact the Club's Training Officer to ensure that a suitable training course is available. Note that all training the club provides is done on a voluntary basis.

The Training Officer will also discuss with you any medical conditions and their effect on your diving; a reasonable level of fitness is needed for diving and it is very important that you make full disclosure of any medical conditions. You may need to seek advice from a doctor or diving referee before being able to dive, but where a condition exists it can be an essential pre-requisite to diving.

Once a course date has been agreed and the medical form completed, send the medical form, this form and the appropriate fee to the Club Treasurer.

### Section 5 - Diving Membership - Existing Qualification

Subject to the Club's Diving Officer's approval you can dive to the limits of your qualification on club dives. BSAC qualified divers can renew their BSAC qualification with their club membership. Divers qualified with other agencies can dive on those qualifications together with a suitable 3rd party diving insurance policy; this can be obtained independently or by joining BSAC.

Contact the Club's diving officer to discuss. You will need to send this form, a medical form, and the appropriate fee to the Club Treasurer. The Diving Officer will need sight of your diving qualification and evidence of insurance if not a BSAC member, plus photocopies of these documents; you may be required to do a check-out dive.
