

Events Diary

ALWAYS CONTACT THE DIVE MARSHALL BEFORE GOING ON THE DIVE / EVENT.

For most day dives it is best to call up to a few nights before the event to let the marshall know you are interested in an event. However if the boat is being used on a day dive it is best to give at least a week's notice. For club trips it is best to register your interest as soon as you possibly can - most weekend trips fill up very quickly and organisers need to know numbers to book accommodation etc. For some of the more popular or exotic trips we may have to book up to 12 months in advance to get space so it is essential to make your intentions known sooner rather than later!

Club equipment is available on loan to club members. A £5 deposit (refundable) is required. Anybody requiring diving equipment for pool use must give the Equipment Officer at least 1 weeks notice as only pre-booked equipment will be brought to the pool. Anybody requiring equipment for open water must also give the same notice. This equipment will be available to pick up from the pool on Monday nights only, and must be returned the Monday following collection.

Dive managers should forward/give dive logs to the dive officer asap after the dive. Any incident should be reported to the dive officer urgently once the immediate needs of managing the incident have been dealt with.

Please bear in mind that weather forecasts may affect plans for diving in the sea. Sea diving is by nature weather dependant, therefore sea dives may need to be cancelled or changed because of the weather. Also on occasions we may try to arrange sea dives at short notice.

November 2009

Date	Dive Site	Description	Dive Manager	Time
Fri 13/11	MHYC	Dive Planning Meeting	Lewis Bambury	8:30pm
Thu 19/11	MAD Divers	Underwater Digital Cameras - talk by Lewis Bambury	Lewis Bambury	6:30pm for 7:00pm
